IT IS 2300: HTML, CSS, Javascript

- Lab + Quiz/Discussion/Lecture
- Pair programming in lab – random pairs each week
- Videos from YouTube
- Quizzes to prompt active learning
- Experimented with variety of quiz formats
- Open ended project
  - Greater creativity, more invested in outcome
Evaluation thus far

• Survey to students all last year
• 65%-80% positive responses on aspects of the courses
• Main issues:
  – Labs before lecture
  – Still lots of students not completing assignments
